Govt college teachers go on strike Jan 14

Government college teachers will observe a token strike on January 14 in protest against the attack on Prof. Mohammad Hanif, Principal of BM College in Barisal, during the college student union election, reports UNB.

Classes and examinations, including annual and test exams and admission test, will come under the strike in all government colleges and similar institutions across the country, says a press release.

The BCS General Education Association has called the day-long strike.

The association demanded immediate arrest and exemplary punishment of the attackers.
