Text-books for primary students being sold in blackmarket

From Our Correspondent

GAZIPUR, May 9:—The text-books supplied by government for distribution among the primary school students free of cost are being sold in the blackmarket in all six thana towns.

The local education authority sold the text-books in the black market in collaboration with some persons of the local libraries, it is alleged.

Mashroom growth of hotels

Mashroom growth of hotels in the town is causing health hazards.

Due to absence of good hotels and restaurants in the town numerous hotels have sprung up by the side of the lanes and by lanes.

Foodsuffs are prepared and stored in these hotels in most unhygienic manner. There is none to check the unhygienic process of cooking and storing of foods.
