Plans to introduce computer course at SSC level

Bangladesh Computer Council (BCC) will implement a project for introducing computer course at secondary school level, reports UNB.

The decision was taken at a meeting of the Council Committee of BCC held in Dhaka on Saturday Education Minister Barrister Jamiruddin Sircar presided over the meeting.

It was decided that teachers will be imparted training on computer course at different levels at first phase of the project.

It was also decided to impart training on computer to 13,200 educated youths through setting up centres at disterict head quarters within five years at an estimated cost of Tk two crore.
