### **Cadet College Admission Test 1994**

The Cadet College Admission Test 1994 was commenced in 21st Jan 1994. I appeared in this test at Fauzdarhut Cadet College Centre. Being inspired by my parents and a uncle of mine who is a military officer, I preferred myself for the test. In addition to my regular studies in BWA School Ctg. I got a special coaching in Old Fauzians Association. For this purpose, I studied quite a lot. In this prescribed day, I along with my parents rushed at the Fauzdarhut Cadet College Centre, at about 8 a.m. one hour before the schedule time. I have been hundreds of students like me and many parents of them. They were really very eager. As I had good preparation, which I have mentioned earlier, my test was quite fine. Even then, I have to mention here that the prescribed time (1½ hour) is not sufficient for the long mathematics test. On the other hand, this mathematics was the starting one. So I felt very puzzled. This mathematics is really a trouble some for the test students. I am writing it for my friends of OJC who intend to appear the Cadet College Admission test in the days ahead.
