Madrasah education is an integral part of the national schooling system and there is no question to stop it, a meeting of the Parliamentary Standing Committee on Education Ministry was told on Tuesday, reports UNB.

The parliamentary watchdog urged the people not to be misled by the propaganda of those who are out to reap political benefit by giving misleading information about madrasah education.

The meeting was informed that after the present government came to power, more allocations were given for madrasah education than in the past and effective steps taken for its development.

Steps have also been taken to include science and vocational education in the madrasah curriculum.

The present government, since it took over, spent about Tk 143 crore for the development of madrasah education. A training centre for Madrasah teachers has been built at Gazipur at a cost of Tk 10 crore.

Recognition of some madrasahs was withdrawn or suspended as they failed to meet the government's guidelines. Other educational institutions are also subject to similar action in case of failure to meet the conditions.

The standing committee was assured that those madrasahs would get recognition again if they fulfil or promise to fulfil the guidelines.
