KHULNA, Oct 18.—Dr. Md. Saiful Islam, Dean of Social Science Discipline of Khulna University (KU) was discharged from his position and his promotion too was cancelled on Monday on the allegation of teasing a female student of the discipline and threatening to marry her by force.

It is alleged that Dr. Saiful Islam tempted the female student to submit her examination paper in advance on the plea of marrying her. But she told him that her marriage has already been elsewhere.

Dr. Saiful being aggrieved threatened her saying that she would not be given pass mark unless she agrees to marry him.

The female student informed the matter to the Vice-Chancellor of the University. The authority later discharged him from the position of 'Dean' and also cancelled his promotion.
