For quality teachers

Education is the mother of all other departments. But quality of Education has so much deteriorated in the coun-

try that the schools and colleges do not get the teachers well-grounded in English, Bengali, Mathematics and Physics, who can teach the subjects with competency.

To serve the commercial purposes the Universities manufacture graduates and post-

graduates of political turn of mind and not of ethical brand. Our government has established Medical Colleges, Engineering Colleges and BUET and Bangladesh Agriculture University for producing some technical manpower. Is not Education a technical subject?

itself? Can anyone and every one be a teacher? Teaching requires best calibre and also temperament and as such education needs immediate creation of Cadre Service and for that purpose a Bangladesh University of Teachers Education is needed. In this connec-

tion the present Training Colleges may be turned into colleges of Teachers Education to admit only the meritorious selected First Division Intermediate Students into the three years Honours class of Teachers Education instead of sharpening the blunt materials in the B.Ed. Colleges practically to serve no purpose.
