mentioned that two rival groups of students had turned the campus into a battle field by frequently resorting to exchange of fire, brick batting and clashes.

It alleged that the rival groups of students also exchanged fire last night for about five hours when the teachers and the employees in the campus felt quite insecure. The continued terrorism has created panic among the teachers and the employees who cannot live there with a sense of security, the memorandum pointed out.

The teachers and the employees also threatened to stop all academic and other works if proper steps were not taken by the appropriate authority to check terrorism in BIT campus.

The teachers brought out a procession in the city in support of their demands.
