Text books sale procedure simplified

The procedure for sale of text books through post offices has been simplified so that the students and their guardians can buy the text books easily, according to an official announcement.

According to the revised procedure the students or their guardians will be able to buy the text books from any authorised post office showing identity cards of the students issued by the respective headmaster or headmistresses.

Class-wise list of students in prescribed form need not be submitted to the postmasters by the school authorities as required previously.
