No result after 15 months of declaration

Our Correspondent

DINAJPUR: Even after 15 months of the then Education Minister declaring the B.Sc. course open at the Dinajpur Women's College and Ministry's quick approval students are yet to get the opportunity to study science at the degree level here.

The Rajshahi University authorities are unwilling to recognise it for want of requisite number of teachers and laboratory equipment in the 22-year-old College.

The college authorities said that relevant authorities were requested for sanction of requisite number of teachers and employees for opening the course. A Tk 11 lakh plan was also placed before them to develop the college to the desired level to meet the demand of the greater Dinajpur area but to no avail.
