### Non-fulfilment of BOU teachers demands resented

By A Staff Reporter

Bangladesh Open University Teachers' Association (BOUTA) on Sunday in a statement criticised what they said, attempts of the Vice-Chancellor of the university to by-pass the demands of the teachers and urged the Chancellor of the University to take measures to remove the prevailing irregularities in the university.

The association, according to a press release, submitted a memorandum containing 18 point demands to the VC of the BOU on August 31 last. The demands included appointment of the teachers through open advertisement in place of appointment on ad-hoc basis, preparation of proper transport policy and presentation of the expenditures of the university to the proper authority.

The statement said that following submission of the memorandum, VC of University arranged a discussion meeting with the teachers of the university regarding the academic development and of the privileges of the teachers. But the meeting ended without any definite decisions, the statement added.
