4000 educational insts developed in four yrs

MAGURA, Feb 4: The government developed infrastructure of 4,000 educational institutions in four years to expand education at different parts of the country, reports UNB.

Agriculture and Water Resources Minister Majid ul

Haque said this at a number of rallies in Magura after attending foundation laying ceremonies at Sreepur thana on Wednesday.

"Education is essential for the socio-economic development", Majid ul-Haque said adding that the government has the highest budget-allocation in the sector.

He said the present government has been implementing various uplift schemes to meet the basic five needs of the people. Apart from education, the government is implementing schemes in agriculture, fisheries, and communication sectors on priority basis.

He also visited some agriculture-fair, released fish fry in the river Kumar and attended the prize distribution ceremony of Amal Shah School and Sreepur High School, said an official handout.
