Govt school/college wanted at Uttara

Recently Education Secretary announced that six govt. high schools would be established in Dhaka on the model of Govt. Laboratory High School. We appreciate the decision of the government.

Uttara Model Town is be-

LETTERS FROM READERS

coming one of the most important residential areas of the city. People of different professions like engineers, doctors, educationists and journalists live in this area. But a grave problem for the residents of Uttara is the want of school/college. We are yet to know about the government's plan to establish any school or college in that area.

Due to lack of facility of such educational institutions residents of Uttara Model Town are now facing an undescribable situation. It is not possible for every guardian to send his/her children in the educational institutions of the main town.

Keeping in view the situation narrated above we demand to set up a Laboratory High School in Uttara. A govt. College may also be established there which will generate a lot of benefits for the middle class people of the residential area.
