

Govt urged to announce pay-scales of teachers

CHITTAGONG, Dec. 2: Prof M Muzammel Huq, convenor of Chittagong district Government College Teachers Co-ordination Committee, on Wednesday called upon the Government to implement immediately the recommendations of the "Study Committee for Education," to remove present stalemate in the country's education arena, reports BSS.

Prof Huq also urged the Government to refrain from taking any measures against the striking Government college teachers for the greater national interest.

Addressing a Press conference at the Press Club here Prof Huq reiterated that the Government college teachers would continue their strike until realisation of their legitimate demands blaming the Government for the present situation. He said it was created because of Government's failure to announce the national pay-scales for the teachers which should be at par with the pay-scales of other officials in different departments having comparable educational qualification, experience and responsibilities.
