### DUTA criticises govt decision on admission rules

Dhaka University Teachers' Association (DUTA) Wednesday sharply criticised the government for its move to change the admission rules of various educational institutions, including universities, reports UNB.

In a statement, DUTA President Prof ATM Zahurul Haque and General Secretary Prof SM Imamul Haque expressed concern at the news item published in a section of newspapers that the government had changed the admission rules of the country's various educational institutions, including universities.

"We think, it's an interference in the university autonomy as the universities have their own admission rules formulated by the academic councils", the statement said.
