Women university be established soon

Recently Education Minister Jamiruddin Sircar informed the Parliament that the government has plans to turn the Eden Girls' College into a full-fledged university for women. We appreciate the plan and hope that the plan will be executed soon.

Since a long time people from different sections of the society have been urging the government to convert the Eden College into a Women

University and suggestion is also there to name it after Begum Rokeya who did a lot for the expansion of education among the womanfolk of this part of the sub-continent. We sincerely hope that the government will pay due attention to the public sentiments.
