

People urged to help develop primary education

Our Correspondent

MAGURA, A seminar on new methods of primary education was held at Magura sadar upazila parishad auditorium on January 14 under the auspices of the upazila primary education office.

Mr Abdul Latif, deputy commissioner, Magura attended the seminar as chief guest while Abdus Sukur UNO Magura sadar upazila attended the seminar as special guest. Mr M A Awal, chairman of the upazila parishad presided over the seminar.

About 300 headmasters chairmen of managing committees of primary schools and local

elite attended the seminar.

Others who addressed in the seminar included Mr M A Khatun, Moksedul Hassan, Abdul Quddus and M A Gafur. The speakers underscored the need for enlightening the common people about the importance of primary education. They also urged the local people to help and work for the development of primary education.

The Magura sadar upazila education office and the upazila parishad jointly declared Magura No. 1 Government Primary School and Parla Government Primary School the best schools for the year 1987. The headmasters of these primary schools declared the best teachers. Certificates and prizes were distributed among the best teachers and best school.

SCIENCE EXHIBITION

A three-day long science exhibition will be inaugurated at Magura Government College on January 27. It will be the Magura district-level function of the 11th national science week.

In this connection a meeting was held at the office of the principal of the college. The meeting was presided over by Kazi Abdus Sobhan. The meeting formed different subcommittees for successful holding of the exhibition.

A good number of science clubs, schools and colleges of four upazila under Magura district will participate in the exhibition.

Mr Abdul Latif, deputy commissioner, Magura will formally inaugurate the science exhibition. The programme will include essay and debate competition.
