since the incident. It said an Enquiry committee had primarily identified some people responsible for the violence. "But it is necessary that the guilt of the accused persons be proved before punishment is awarded to them so that the neutrality of the administration cannot be questioned," the meeting said adding all legal measures to give punishment on the basis of the Enquiry Committee report have not yet been taken. The meeting said it will take some time more to take those legal steps.

The syndicate hoped that all quarters would help maintain an atmosphere conducive to the ensuing DUCSC and hall students Union elections.
