Girls' hostel for Comilla Victoria College urged

Our Correspondent

COMILLA: The girl students of Comilla Victoria University College are suffering for the lack of accommodation as there is no hostel for them.

It is learnt that 25 per cent of the students of the college are females and most of them are from outside Comilla town. The girl students who come from rural areas live in rented houses. They have urged the authorities concerned to construct a hostel to mitigate their suffering on an urgent basis.

The Comilla Victoria Government College has recently been upgraded to a University College. Honours Courses in seven subjects have already been started.
