# DU library linked with foreign libraries

By DU Correspondent

The Dhaka University Library Automation Project (DULAP) was inaugurated yesterday, linking the DU Central Library with other libraries of the world.

Vice-chancellor of the university Prof A.K. Azad Chowdhury inaugurated the automation project on the ground floor of the Central library.

The Tk 1.24 crore project has been funded by the United Nations Development Programme (UNDP), University Grants Commission (UGC), the government and DU authorities.

The project enables people from across the world to know about the library, university and the country. Teachers, students and researchers of the university will also be able to search the other libraries of the world.

Meanwhile, a DU press release said yesterday the project would be completed by June, 1999.
