Withheld 1 S S C results

The results of the SSC Examination of all the Boards were published on 28-7-89. The percentage of pass is very poor. Simultaneously the result of a large number of students are withheld for which the fate of these students are quite uncertain. These students are passing their days in utter frustration.

Admission test is going to be held immediately. These students will not be in a position to sit for the admission test. As the results of a large number of students are withheld, immediate steps are to be taken to release them since those who pass can get their admission into colleges and the unsuccessful students can prepare themselves for the next examinations.

This year the authorities took some steps to control unfair means in the examination which

we should say were bold. As copying in the examination was going on it was easy for the students to get certificates without acquiring knowledge for which the country has suffered much. We must check it at any cost; otherwise our future generation will be totally doomed and they will not be in a position to do anything for themselves as for the nation.

In conclusion I would like to draw the attention of the authorities of all the Boards to publish the withheld result immediately so that those who are successful can get themselves admitted in to college and unsuccessful candidates get the opportunity to prepare themselves for the next examination.
