## UN publications for schools to be studied

A study on the availability of United Nations documentation in the secondary schools will be conducted by the United School International in six South Asian countries including Bangladesh reports BSS.

The objectives of the study are to assess the range of all UN publications received by the secondary schools to identify the sources of these documentation, to examine the use of these materials in the teaching programmes and in acquiring knowledge about the UN and its specialised agencies and finally to evaluate the impact of such documentation on teachers and students.

The USI will conduct the study by distributing a questionnaire among selected secondary schools, the heads of institutions interested to take part in the study have been requested to write to the Coordinator of USI, G.P.O. Box No. 2674, Dhaka.
