### Non-govt teachers strike today

Varsity Correspondent

Teachers of the country's non-government colleges and schools will observe a full-day token strike today (Thursday) in support of their 15-point demand.

Teachers will hold rally at their respective institute premises demanding realisation of their demands which include reconstruction of trustee board, implementation of the recommendations of the high-powered committee and a law for the job security of the teachers.

Bangladesh College Teachers' Association in a statement on Wednesday urged the teachers of all non-government schools and colleges to make today's programme a success.
