School teachers criticise Govt circular

Staff Correspondent

The General Secretary of Bangladesh Government High School Teachers Association has strongly criticised the recently issued circular of the Secondary and High Education Directorate.

Md. Nazrul Islam, the General Secretary of the Association in a Press release said through the circular the government has seized the right of promotion of the secondary school teachers.

Condemning the circular as a conspiracy against the high school teachers' community, the Secretary said the circular has curtailed the right of the teachers to a great extent and in the long run there would be promotion of the teachers to the posts of Head master, School Inspectors and Deputy Directors.

He asked the directorate to take corrective measures in the present employment rules otherwise the high school teachers association would call greater movement.
