Sadullapur college facing fund shortage

Our Correspondent

GAIBANDHA, Dec. 8:—Sadullapur Degree College situated at Upazila Headquarters has been plagued with various problems and may be taken up under Science Development Scheme.

In Degree courses, the BLSS course, Science, Arts and Commerce course have been introduced. With the introduction of Science course, the financial position of the college has deteriorated. There is no fund for the purchase of Science Apparatus and re-agents. The major problem is fund constraints. Except Govt. benefit and tuition fees, there is no source of income.

The college is also facing problems of Science Laboratory, shortage of accommodation, furniture, science equipments and modern apparatus for science laboratories.

The present roll strength stands 3,000. In comparison with the number of students, the existing class rooms are inadequate to accommodate the students. Science teaching is being greatly hampered for want of Science Laboratories and apparatus.

The college has a staff of 61 including 40 professors. The college has no boundary wall. The local people demanded nationalist for effecting teaching to the rural genius. To maintain a huge staff the development work of the college is not possible.

need for consistent and co-ordinating effort to make the no-going projects a success.

Kutcha latrines

The kutcha latrines which are being used in the Pourashava area causes health hazard to the people of Gaibandha town. The house owners have constructed kutcha latrines. Apart from this, there are large number of kutcha latrines constructed by the side of the public roads which has brought hazard to the pedestrians. These latrines cause an unhealthy atmosphere specially during the rainy seasons.
