## Khulna Suhrawardy College needs grant

From A Correspondent

KHULNA: Shahid Suhrawardy College, Khulna which is an institution with exceptional promise for expansion of quality education in the area needs financial assistance for its development from the relevant authorities.

Established in July 1972 on the south-west side of Khulna metropolis, the College is situated on its 1.63 acre of land. A portion of the College building is pucca and the rest semi-pucca with tin shed, accommodating classrooms, office, library, laboratory and common rooms. A vacant land inside the campus is used as playground.

The College is affiliated both with Jessore Education Board upto HSC level and Rajshahi University upto Degree level. In HSC level there are Humanities,

Science and Commerce faculties and in degree level there are Arts, Social Science and Commerce faculties. The College has 20 experienced and trained teachers.

Having a good number of boys and girls studying here the College has developed a good tradition in its education system by introducing periodical terminal examinations. It has also earned a name in various extra-academic activities.

Inspite of enough scope for expansion and development, the College suffers from paucity of fund.
