**Earnest Appeal to the conscious guardians
to participate in the obstruction movement
against copying and for the preservation of
the standard of Education.**

Education is one of the key fundamental rights for a human being. The more a nation is educated the more the nation is developed. So the education in real sense is essential for attaining the personal, social and national development. It is regrettably to say that our present generation has forgotten the prime objective of education keeping themselves busy in competition for obtaining certificates. So for obtaining certificates, a large number of students have been indulging in search for easy ways or unfair means.

As a result the standard of education is deteriorating and the whole nation is turning to be devoid of merit. As such a large number of people have been drifted out of the competition. A dreadful calamity will fall in our social and national life if this situation continues. So we are requesting the teachers, guardians and the conscious people of the society to come forward to prevent the adoption of unfair means with the view to guiding the present and the future generation in the right direction.

In addition to sending your children to the educational institutions regularly with the view to making them attentive in their studies please be sure that they are attached daily with 4/5 hours study at home.

It can be asserted without any hesitation that if the students learn their lessons regularly the attempt for prevention of unfair means will become fruitful. Except this, there is no easy or alternative way for it.

Let us come forward in order to be conscious in performing our duties.

A conference is going to be held at Dhaka with the view to strengthening "The Movement for the Maintenance of the standard of Education and curbing of the Unfair Means" with the help of the conscious guardians drawn from each and every police station area of the country. In the above mentioned conference a national committee will be organized with representatives of each police station area of the country. Education loving guardians and conscious people of the society, who intends to take part in the movement are requested to please write to the following address. Invitation card of the conference will be sent to you in due time.

MIAH ABDULLAH WAZED
EX-MEMBER OF PARLIAMENT
and Convener

The obstruction movement against
copying and for the preservation
of the standard of education.

Head Office: A-18, Hatkhola Road, Dhaka- 1203.
