Books crisis in Sirajganj
SIRAJGANJ, Nov 21: Study of SSC students are severely being hampered due to non-availability of the books of a newly introduced subject on agriculture, reports UNB.
 A subject on agriculture has been made compulsory for the secondary school students from class six to nine from the current academic session.
 But guardians alleged that books on the subject are not available in the local markets even after 10 months of the current academic year.
 They urged the authorities concerned to take immediate steps to resolve the problem.
