Set code error

SSC examinees' guardians stage procession

By A Staff Reporter

The Coordination Committee of the Guardians of SSC Examinees who were victimised due to error in filling up the "set code" in answer scripts on Monday brought out a procession and held a rally in front of the Jatiya Press Club at 11.30 am in the city.

In the rally convener of the committee Engineer Md. Amir Hossain demanded that answer scripts of the aggrieved examinees be evaluated properly and given marks on the basis of such evaluation. The result of these examinees be announced within next seven days. Mr. Hossain demanded.

He protested the way Dhaka Board authorities declared the results of these examinees.

He also demanded of the Dhaka Board authorities to cancel the results and rejected the board decision to show 'pass' under the previously shown '000' marks in the answer scripts.
