Students suffer for text-books

From Our Correspondent

MAGURA Feb. 24:—The students of Primary Schools of Magura district have been facing great difficulty due to non-availability of text-books. It is gathered that books published by the Text-books Board are not being supplied to the educational institutions for unknown reason.

According to a reliable source the pace of distribution of free books among primary school students has slowed down. If the trend continues, many students it is apprehended will go without book for a long time.

The problem has particularly

become acute for students of class one to five.

Kamarkhali Bus Stand has no waiting-shed for a long time causing much sufferings to the passengers particularly to the women and children.

In the absence of waiting shed, passengers have to remain standing under the open sky even during the sun and rain.
