Mathematical appreciation course begins

An 8-week mathematical appreciation course was opened at the Bangladesh Project Management Institute on Friday by Mr A. M. Amaluddin Chowdhury, Secretary, Ministry of Works and Urban Development, reports BSS.

Mr Chowdhury in his inaugural address observed that the lack of managerial ability and professional skill at the operation level has been one of the major causes for slow and sluggish implementation of programmes and projects. He lauded the efforts of the institute to improve both efficiency as well as skill through regular courses and training imparted by it.

Mr Mohammad Serajuddin, Chairman BPMI highlighted various programmes and projects undertaken by the institute.

Dr Shah Md Matiur Rahman, Course Director, Mr. M. A. Mannan, Secretary General of the institute also spoke on the occasion. 27 participants from various sectors are taking part in the course.
