sports and recreational and other community activities.

The decision has been taken at a meeting of the Government Employees Welfare Committee in Dhaka on Wednesday. The Additional Secretary in-charge of the Establishment Ministry presided.

The meeting decided that in order to reduce the increasing pressure on the transport for the Class III and IV employees organised by the Em- and IV Government employees Welfare Directorate, Government employees will be given bicycles under the scheme of transport loan.

At the first phase, one-third of the employees in four divisional headquarters will be provided with these facilities on first-come first-serve basis. The members of transport staff would be absorbed as regular government servants so as to provide them with all the facilities as per Government Rules.

Regarding housing settle-
ment of the Class III and IV government employees, the Committee decided to take projects in four divisions.

Some community centres and children parks will be set for recreation of the Government employees.
