## University For Women

Sir,

I strongly endorse the views expressed in your editorial a few days ago pleading for a womens university in Dhaka. Guardians are simply scared to send their daughters to Dhaka University for reasons so well known that they require no mention. You have rightly suggested that as a first step Eden Girls' College shoud be upgraded into a university and to start with Honours and Masters Courses of Humanities should be opened. In the context of the present-day situaiton girls can study peacefully, only in a women's University. I, therefore, request the relevant authorities to rise to the occasion and do something in this regard. Good education for the girls is all the more important because it is said that you teach a man and you teach a person, you teach a woman and you teach the whole family.

Mrs. Murshed Jahan, Ispahani Colony, Dhaka.
