Date for HSC admission refixed

The date for admission into higher secondary classes without fine has been refixed on October 8 instead of September 30, an official handout said in Dhaka on Monday, reports BSS.

It said new number sheets were also being given to concerned students after necessary correction of errors in the SSC results of 1995.

Meanwhile, the merit list has also been corrected and measures have been taken to help newly inducted students in the corrected merit list to take part in the reception to be held at the Osmani Memorial Hall on September 28, the handout said.

Secondary Education Board authority enquired into the matter relating to the SSC results of 1995, published in different newspapers.

It was found after enquiry that the situation was created due to some errors in the preparation of objective questions in the 'Kha' set of English second paper.

"Computer was not responsible for this error," the handout said.
