DU students observe strike

Varsity Correspondent

The students council for preventing job discrimination in pharmaceutical industries observed two-day strike at four departments at Curzon Hall and Mokarram Hossain Science building of Dhaka University on Sunday and Monday.

The council, a collective platform of the students of four departments—Bio-chemistry, Applied Chemistry, Chemistry and Micro Biology of Dhaka University called the strike at these departments for scrapping Section 13(1) of the Drug Policy of 1982.

The students of these departments also observed a blockade at the Department of Pharmacy on Monday and Sunday in protest against the indecorous words made by the Chairman of Pharmacy Department against the students who were observing strike at the Science Faculty of Dhaka University on January 15.
