Bandarban Public library beset with problems

From Our Correspondent

BANDARBAN, Nov. 24 The district Govt. Public Library at Bandarban town is beset with a host of problems and as such is now functioning most unsatisfactorily.

According to source a good number of important and valuable books of the library are found missing and no attempt is yet made by the management of the library to recover or to replace of the books. Many readers particularly those who are at the top of the society and government officials take out valuable books and

do not return them even after many months.

It is also mentioned here that the library has neither a Librarian nor a Catalogue Keeper. Only two bearer has been conducting the library. The library has no office building permanently of its own, it has been functioning in rented houses. As a result, location of the library is hardly known to the most readers it is learnt.

The local people urged the authority concerned to make the library attractive and more useful to the general readers, especially to the students of Bandarban Hill District.
