Cell formed to implement Edn Policy

A 20-member cell has been constituted to give necessary advice and guidelines to begin the implementation process of the National Education Policy 2000, reports UNB.

Education Secretary Dr Saadat Hussein has been made chairman and director general of the National Education Management Academy member secretary of the cell, which held its first meeting on Sunday.

The meeting decided to send guidelines to authorities concerned so that the education policy is properly reflected in national budget, planning documents and consortium meeting.

The meeting expressed the opinion that outcomes of the education policy should be taken into consideration and given importance while planning and budgeting in future.
