

## Students with special needs should be given technical education

**Bangladesh Sangbad  
Sangstha · Dhaka**

SPEAKERS at a workshop on Saturday stressed the need for imparting technical education to the students with special need to make them worthy citizens of the country.

Students with special need can make significant contribution in the development process in the country, if they are given technical education, they told the workshop in the conference of Directorate of Technical Education here, an official release said.

Directorate of Technical Education, Bangladesh

Skills for Employment and Productivity Project and International Labour Organisation jointly organised the workshop titled 'Inclusion of students with special needs in technical education.'

Chairman of Bangladesh Technical Education Board Mostafizur Rahman, officials of government and non-government bodies, among others, addressed the workshop with director general of Directorate of Technical Education Ashok Kumar Biswas in the chair.

Principals of 49 government polytechnics and 63 technical schools and colleges, among others, attended the workshop.
