27 posts of HMs vacant, school bodies funding in Lalmonirhat

From Our Correspondent

LALMONIRHAT, June 17:—At least 27 posts of Headmasters have been lying vacant for years at different secondary schools of different upazila in Lalmonirhat district while their education as well as administrations and managements are going on with much indiscrimination and corruption. The posts of headmasters in different upazila are as follows Lalmonirhat Sadar-5, Aditmari-5, Kaligonj-4, Hatibandha-7, Patgram-6, source of Lalmonirhat district education office told.

The schools have been run with the help of some so called Acting Headmasters who are allegedly disputed as having no quality remaining sitting in the Headmasters posts and grasping the chairs by flattering the Managing Committee members.

In many schools, most of the Acting Headmasters have no expertise or they have knowledge regarding management administration and rules and regulations of Education Board though at the time of appointing any Headmaster it is required that a Headmaster and is required that a lot of command in all subjects with experience as an Assistant Headmaster. It is alleged that in most of the schools in spite of having many other skilled teachers, some greedy teachers by adopting unfair policy are taking the Acting Head Posts, realizing their self interest marring the overall progress of the institutions.

According to allegation many of the acting headmasters are misappropriating money from different sectors of coaching fees, TC

fees, SSC collections and from many others sectors that are not known to the SMC (School Managing Committee) members, general teachers or their teachers representatives.

Requesting not to mention name many teachers of many school's that when any one of the teachers come to power as a Headmaster he does not have administer power as per the actual rule and morality while he did a lot of things at his utmost whim and suppressed many other simple teachers following any tripling excuse.

In anonymity an assistant teacher of Gobda High School of Aditmari upazila told that assistant teachers or their representatives can't open mouth as think

that the Headmasters by whispering the committee members and sometimes by managing them with appeasing money may trap them in any complication or harassment.

Sources also add that it is obviously observed that if a teacher gets the post of the Headmaster as an Acting one, he does not will to leave the post any more. So despite the flexibility of the authority concerned in respect of immediate appointment of Headmasters in the vacant posts, the Acting Headmasters are hardly sincere to do the same and adopting many selfish policies in the name of advertisements for appointment of Headmaster. They impose so many conditions in the advertisement other than the government's normal law.
