Primary edn fortnight from Dec 24

"Primary education fortnight" will be observed at all district, thana and school levels across the country from December 24 to January 7, an official handout in Dhaka on Monday, reports BSS.

The fortnight will be observed with the objective of making people aware about the primary education, ensuring enrollment of all eligible children in primary schools and maintaining proper attendances, improving the standard of education and management and academic atmosphere.

Decorating schools at district and thana level education offices with colourful banners, posters and fastoons, holding rallies, milad mahfil, debate and sports competitions and cultural functions are the highlights of the fortnight observance.

Cooperations from people of all walks of life including members of committee for compulsory primary education, local elite and eminent citizens have been sought to make the education fortnight a success.
