## Primary education provided to 3000 illiterate people

From Our Correspondent

GAIBANDHA, Sept. 9.—The local Ahsania Manzil has provided primary education to least 3000 illiterate people including women in two years.

It has set up 83 literacy centres in the different areas of the Gaibandha Sadar thana with a view to imparting education and developing human facilities. Mr. Abedur Rahman, district co-ordinator told me that an extensive programme to remove illiteracy has been taken up under the Literacy Programme. He further disclosed that humanitarian projects have also been taken up with a view to eradicating the social evils.
