

## Activities of 12 medical colleges to remain suspended: Health minister

UNB, Dhaka

Health and Family Welfare Minister Mohammad Nasim yesterday said the activities of 12 medical colleges approved by the immediate past administration will remain suspended until further review.

The minister said this while talking to reporters at a press briefing organised at his ministry ahead of the Mumps-Rubella Immunisation Campaign.

Regarding allegation that there were flaws in giving approvals to the medical colleges, Nasim said, "Though the medical colleges got administrative approvals, there is a need for further review in this regard."

The three-week immunisation campaign will begin on January 25.
