

## 25,000 computers for educational Instt soon

Education Minister Dr Osman Farruk on Monday said government has undertaken a project to provide some 25,000 (free of cost) computers to different government and private educational institutions across the country for easy access to IT education, reports BSS.

The Minister was distributing computers to some government secondary schools as part of the project for Development of the Selected Secondary Schools.

The Minister stressed on qualitative IT education for creating skilled human resource in the country.
