**About Southern Cross University**  
Southern Cross University is an internationally recognized Australian government university, which was established in 1970 and accredited a full university in 1993. It has a reputation for academic excellence having won many prestigious international and Australian awards and grants.

The quality programs offered by the university have high academic standards combined with a strong vocational background. Well-equipped laboratories and lecture theatres, computer facilities and a well-stocked library with a collection of reference books and periodicals, database, videos and disks, ensure facilities needed by the students are readily available.

Located in New South Wales North Coast, it has multi-campus in Lismore, Coffs Harbour, Port Macquarie, Gold Coast and University centers in Sydney. It has more than 10,000 students studying of whom 55% of the students are from outside Australia and this percentage is rising every year.
