

President lays emphasis on pragmatic education for all

President Prof AQM Badrud-
doza Chowdhury has emphasised
the importance of ensuring modern
and pragmatic education for all to
achieve the equivalence of modern
civilisation, says UNB.

"Country's people need to
achieve that goal by upgrading the
standard of knowledge, skill and
technical education," the President
said in a message on the occasion
of National Education Week 2002.

He said the people of Bangla-
desh could set an example of
building a civil democratic society
apart from achieving the desired
progress by sharpening their merits
and thoughts with humanist edu-
cation.

The President wished the pro-
grammes undertaken on the occa-
sion of "National Education Week
2002" a success.
