

How To Make Student Write Correct English

Sir,

We live in an age of science and marvellous technical development. In this age, a good knowledge of English or a good working knowledge of English is indispensable. So in order to make our young budding hopefuls of the nation capable of writing English correctly, freely and speaking English fluently as well, emphasis on the following important topics on grammar and translation in educational institutions should be laid:

- i) use of different forms of Tenses
- ii) use of Number, Gender, Persons and Articles
- iii) Syntax
- iv) Vocabulary
- v) Conjugation of verbs
- vi) Conversion of sentences from Affirmative to Negative, Interrogative and Negative-Interrogative.
- vii) Making or framing of sentences with different words (similar sounding words showing difference in meanings)
- viii) Changing words into different parts of speech (e.g arrive, arrival, agree, agreement agreeable)
- ix) use of the most commonly used phrases and Idioms
- x) Appropriate use of prepositions

xi) use of Auxiliary verbs (am, is are, was, were etc.)

xii) Right use of verbs
In case of translation, best books on English Translation are to be prescribed by the teachers and they will do well to teach the students atleast one or two lessons or atleast four short but simple passages a week thereby making them capable of learning and writing English correctly and freely. Students also should be encouraged to write English, no matter they will mistake in their writing.

Q. Md. Mahboobul Haque,
