

Education report will be placed to govt this month

Education Minister Mahtubur Rahman on Wednesday said the Education Commission would submit its report on expansion and development of education to the government this month, reports BSS.

The commission has already submitted its report on examination system, he said.

He said the report on expansion and development of education would be published to elicit public opinion before its implementation.

The Minister was addressing the officials of different offices and directorates under the Education Ministry at Shikha Bhaban in Dhaka, an official press release said.

Mr. Rahman said officials and employees of the Ministry should work hard with honesty to properly serve the people. "We are all servants of the 100 million people", he said.
