Ample scope to develop country's tech edn

Education Minister Jamiruddin Sircar Saturday said the government had given due importance on expansion of technical education and raising its qualitative standard in the greater interest of national development, reports BSS.

He was inaugurating a workshop on "introduction of instructional objective in the revised syllabus of engineering diploma curriculum" organised by Bangladesh Technical Education Board in Dhaka, an official handout said. The Education Minister said change in the syllabus of technical edu-

tion was an important and necessary task. "There is ample scope for developing technical education in our country," he added.

The inaugural session with board's Chairman Abdur Rafique in the chair, was also addressed by the Director General of Technical Education Directorate Rafiqul Huq.
