Students advised to devote to study

MAUDI, Feb. 25.—Education Minister Mahbubur Rahman has said that the main aim of present student politics should be the overall improvement and expansion of education, reports BSS.

He was laying the foundation stone of the science building of Noakhali Government College at its new site.

Addressing the students and the teachers on the occasion, he said, present government was taking special care for the improvement of education and doing everything for achieving this goal.

The Education Minister said there was a lackless in the educational arena after independence but it saw commendable change and improvement during the last six years' rule of President Hussain Mohammad Ershad.

Speaking about the students, the Minister said, they should not do anything which could harm the society, guardians and the nation. He called upon them to prepare themselves to take leadership of the country by devoting themselves to learning and desisting themselves from acts of destruction, anarchy and terrorism.

The construction of administrative and science buildings and other developmental work had been taken up at the new site of Noakhali Government College at a cost of Taka 70 lakh.
