Dhaka University campus, reports UNB.

The commission will inquire as to how and why the incident took place and identify the persons responsible for it.

Justice Khan said, "if we get proper evidence against any student involved in the incident, we will summon him to appear before the commission."

Urging the authorities to open the university for proper investigation he said it could not be conducted properly if the university remained closed.

The violent student protest that lasted three days erupted following August 20 brawl between students and army personnel at the playground on the campus.

Justice Khan sought cooperation from all.
